Optimization Recommendations

MEDIUM

1. Page Title Length

Your title is 61 characters. Optimal length is 30-60 characters.

How to fix: Adjust your title length to be between 30-60 characters for better search engine display.

HIGH

2. Missing Meta Description

Your page is missing a meta description.

How to fix: Add a compelling meta description between 120-160 characters that summarizes your page content.

MEDIUM

3. Missing Open Graph Tags

Add Open Graph tags for better social media sharing.

How to fix: Add og:title, og:description, og:image, and og:url meta tags for social media optimization.
